

SCHEDULE C

AIRPORT LIABILITY

This schedule contains the State agencies that desire airport liability coverage as of this date. However, the coverage awarded as a result of these specifications **shall not** be limited to these stated agencies. Should the need arise for airport liability coverage for any other State agency, coverage will be awarded per the specifications.

1) Office of Military Affairs - 0230

Esler Field Airport located at Pineville, LA – Operates as a general aviation airfield, but is being developed to provide extensive support to the Louisiana Army National and Air National Guard.

2) Office of Aircraft Services - 0440

State hangar located at the Baton Rouge Metropolitan Airport

3) Department of Transportation and Development - 0550

- a) Heliport located on top deck of DOTD Headquarters, Capital Access Road, Baton Rouge, LA
- b) Helipad located beside DOTD Headquarters building
- c) Harry P. Williams Memorial Airport located in Patterson, LA which is currently operated and maintained by the St. Mary Parish Government

4) E. A. Conway Medical Center - 0910

Heliport located on top deck of hospital on South Grand Street, Monroe, LA

5) Huey P. Long Medical Center - 0914

Helipad located on hospital property in Pineville, LA

6) Louisiana State Penitentiary - 2030

Grass landing strip and concrete helipad located within perimeter of prison fences for emergency medical care access

7) Dixon Correctional Institute - 2080

Asphalt landing strip located outside prison perimeter but on State property near Jackson, LA

8) Department of Wildlife and Fisheries - 2810

Rockefeller Refuge Airstrip located in Grand Cheniere, LA

The following persons **shall** be named as Additional Insured as respects the Rockefeller Refuge Airstrip, which is leased to the Dept. of Wildlife and Fisheries:

9) Office of Forestry - 3900

Airport located in Woodworth, LA

10) Louisiana Technical College-Sowela - 6410

The size of the designated airstrip is 200 feet by 11,000 feet with a control tower. The main storage space in the hangar is 24,000 square feet. All flying aircraft are hangared each night. Sowela has an average of 300 take-offs and landings per year on their airstrip.

Sowela offers, as one of its training programs, an Airframe and Powerplant instructional program. The program is approved by both the Board of Elementary and Secondary Education and the FAA, with the licensing coming from the FAA. The Airframe and Powerplant Program is the teaching of maintenance and repair of fixed-wing aircraft and rotary-wing aircraft. The program instructors include certified mechanics and inspectors. The instruction is governed by FAR Part 91.

The instructional program consists of 50 percent classroom instruction and 50 percent hands-on experience with instruction. As of January 15, 1998, four (4) "test stands", which include only an aircraft engine and propeller, are being used in the maintenance/repair training program. This equipment should be included under the airport portion of the coverage.

11) Ascension-St. James Airport Authority - 7225

The regional airport is located in Gonzales, LA. The airport has an office, three (3) hangar buildings, and 16 tie-downs. It currently has one-year leases to house 24 aircraft in the hangars and one 3-year lease to house an aircraft in the largest hanger. Approximately nine (9) of the 16 tie-downs are in use. This airport limits its exposure as these lease agreements contain waivers of subrogation rights agreed to by each individual owner and their insurance carrier. Also, each individual signs a hold-harmless agreement as part of their contract with the airport.
